

Day 1	JBoss Application Server and Java EE6	Programming, Development and Test	Cool Stuff (Day One)
8:30 - 9:30	Registration/Check-In		
9:30	Zen of Modules: Class Loading in JBoss AS 7	Develop Rich Web Applications with Seam, RESTEasy and ExtJS	Demystifying Complex Event Processing (CEP)
10:30	JavaEE inside Google AppEngine	Building Cross-Device Apps with Flex and JBoss	Agile Test Automation with Arquillion and Concordion
11:30	Hacking Java EE: CDI extension n00b to l33t in 60 minutes	jBPM migration tooling - no one is left behind	REST best practices with HornetQ REST
12:30	Lunch		
1:30	Trusted security with PicketLink and PicketBox	Drools and jBPM5 in the Real World	Transacting the Cloud
2:30	Handling the Unexpected: Exception programing with Seam Catch	Flexible business processes using jBPM5	Modular Class Loading with JBoss Modules
3:30	Weld - past, present and future	Git and Gerrit in Action	Clojure Development with JBoss
4:30	What's Your Java App Up To? Find Out With Byteman	jBPM5 in action: A Quickstart for Developers	Realize the full potential of JSF with Seam Faces and CDI
5:30	Dinner & JBoss Community Recognition Awards		
6:30	Real-World JBoss Panel		
7:30	Community Asylum		
8:00 - 2:00am	Hackfest		

Day 2	Beyond Java and Java EE	Scalability and Cloud	Cool Stuff (Day Two)
9:30	The Mobile Web Revealed For The Java Developer	Infinispan for ninja developers	Painless Persistence - Best Practices for using JPA with Hibernate
10:30	Scaling Rails Applications with TorqueBox	MapReduce on the Cloud: Infinispan Distributed Task Execution Framework	Optimizing Performance with JBoss Application Server 7
11:30	Filling The Gap : Going Mobile with JBoss Technologies Today	Enterprise Railo Scaling in the Cloud	The Future of Development Usability in Enterprise Java
12:30	Lunch		
1:30	Governing services, data, rules, processes and more	HornetQ 2.2 new features and what we are planning for the future	Rapid Enterprise Java: RAD Frameworks for developer productivity on JBoss
2:30	Multi-Deployment, Multi-Container, Multi-Technology Testing and Discovery	Advanced Queries on the Infinispan Data Grid	Tuning and development with SIP Servlet on JBoss Communications Platform
4:00	JBoss World Registration Opens - JBoss World Keynote		
7:00	JBoss World Reception / Partner Pavilion
